Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Statement of Management's Responsibilities for the Preparation and Approval of the Consolidated Financial Statements for the year ended 31 December 2025

Management of Joint Stock Company Kazteleport - subsidiary company of Halyk Bank of Kazakhstan (the Company) and its subsidiary (hereinafter jointly – the Group) is responsible for the preparation of the consolidated financial statements that present fairly the consolidated financial position of the Group as at 31 December 2025, and the consolidated results of its operations, consolidated cash flows and changes in equity for the year then ended, and disclosures of material accounting policies and notes to the consolidated financial statements in compliance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

In preparing the consolidated financial statements, management is responsible for:

- properly selecting and applying accounting policies;
- presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- providing additional disclosures when compliance with the specific requirements in IFRS Accounting Standards are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's financial position and financial performance; and
- making an assessment of the Group's ability to continue as a going concern.

Management is also responsible for:

- designing, implementing and maintaining an effective and sound system of internal controls, throughout the Group;
- maintaining adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the consolidated financial position of the Group, and which enable them to ensure that the consolidated financial statements of the Group comply with IFRS Accounting Standards;
- maintaining statutory accounting records in compliance with legislation of the Republic of Kazakhstan and IFRS Accounting Standards;
- taking such steps as are reasonably available to them to safeguard the assets of the Group; and
- detecting and preventing fraud and other irregularities.

These consolidated financial statements of the Group for the year ended 31 December 2025 were authorised for issuance by the Chairman of the Management Board of the Group on 3 March 2026.

On behalf of the Management of the Group:

Kussainbekov K. K.
Chairman

3 March 2026
Almaty, Kazakhstan

Adylova K. R.
Chief Accountant

INDEPENDENT AUDITOR'S REPORT

To the Shareholder of Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Opinion

We have audited the consolidated financial statements of Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan (the Company) and its subsidiary (hereinafter jointly - the Group), which comprise the consolidated statement of financial position as at 31 December 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2025, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* (the "IESBA Code"), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to audits of the financial statements of public interest entities in Republic of Kazakhstan. We have also fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards as issued by the IASB, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited ("DTTL"), its global network of member firms, and their related entities (collectively, the "Deloitte organization"). DTTL (also referred to as "Deloitte Global") and each of its member firms and related entities are legally separate and independent entities, which cannot obligate or bind each other in respect of third parties. DTTL and each DTTL member firm and related entity is liable only for its own acts and omissions, and not those of each other. DTTL does not provide services to clients. Please see www.deloitte.com/about to learn more.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Joint Stock Company “Kazteleport” - Subsidiary Company of Halyk Bank” of Kazakhstan”

Notes to the consolidated financial statements

for the year ended 31 December 2025

(in thousands of Kazakhstani Tenge, unless otherwise indicated)

1. General information

Joint Stock Company Kazteleport - subsidiary company of Halyk Bank of Kazakhstan (hereinafter - the Company) and its subsidiary (hereinafter - the Group) was incorporated on 9 November 1999 as a closed joint stock company in accordance with the laws of the Republic of Kazakhstan and was re-registered as a joint stock company on 28 October 2004.

The Company's registered office is 109 B Abay Avenue, Almaty.

The Company is the subsidiary of Halyk Bank of Kazakhstan JSC (hereinafter - the Parent company or the Bank). As at 31 December 2025 and 2024, the Bank owns 100% of the common shares of the Group. Halyk Bank of Kazakhstan JSC is ultimately controlled by Timur Kulibayev and his wife Dinara Kulibayeva.

The primary activities of the Company include providing telecommunication services, data processing centers (DPC). The Company performs delivery of materials and telecommunication equipment, set-up of structured cabling system, systems of video surveillance and firefighting, technical service of DPC equipment and provides information security services.

The Company operates under licenses issued by the Committee for Construction and Housing and Communal Services of the Ministry of Regional Development of the Republic of Kazakhstan: № 13005408 issued on 5 April 2013 for construction and installation works and the license № 13005409 issued on 5 April 2013 for project development, and the license issued by National Security Committee of the Republic of Kazakhstan № 191 issued on 15 April 2013 for development and sale (including other transfer) of the tools for cryptographic protection of information.

As of 31 December 2025 and 2024 the Group employed 214 and 200 employees, respectively.

As part of the implementation of strategic tasks to enter the market of the Republic of Uzbekistan, in October 2022, by decision of the meeting of the Board of Directors of the Group No. 35 dated 19 September 2022 a subsidiary Foreign Enterprise TELEPORT DC Limited Liability Company was opened in the Republic of Uzbekistan (hereinafter – subsidiary). The share of ownership of the Company in subsidiary is 100%. As of 31 December 2025, the authorized capital of subsidiary was fully formed in the declared amount. The main activity of the subsidiary is the provision of services in the field of computer programming.

Below is information about subsidiaries and their ownership interests as at 31 December:

	Country of origin	Date of initial registration	2025	2024
Limited Liability Company «TELEPORT DC»	Republic of Uzbekistan	26 October 2022	100%	100%

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

2. Adoption of new and revised Standards

New and amended IFRS Accounting Standards that are effective for the current year

In the current year, the Group has applied the following amendment to IFRS Accounting Standards issued by the IASB which is mandatorily effective for an accounting period that begins on or after 1 January 2025. Its adoption has not had any material impact on the disclosures or on the amounts reported in these consolidated financial statements.

- Amendments to IAS 21 *The Effects of Changes in Foreign Exchange Rates* titled *Lack of Exchangeability*

New and revised IFRS Accounting Standards in issue but not yet effective

At the date of authorisation of these consolidated financial statements, the Group has not applied the following new and revised IFRS Accounting Standards that have been issued but are not yet effective:

Amendments to IFRS 9 and IFRS 7 Annual Improvements to IFRS Accounting Standards — Volume 11	<i>Amendments to the Classification and Measurement of Financial Instruments</i> <i>Amendments to IFRS 1 First-time Adoption of International Financial Reporting</i> <i>Standards; IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on</i> <i>implementing IFRS 7; IFRS 9 Financial Instruments; IFRS 10 Consolidated Financial</i> <i>Statements; IAS 7 Statement of Cash Flows</i>
Amendments to IFRS 9 and IFRS 7 IFRS 18 IFRS 19	<i>Contracts Referencing Nature-dependent Electricity</i> <i>Presentation and Disclosures in Financial Statements</i> <i>Subsidiaries without Public Accountability: Disclosures</i>

The management do not expect that the adoption of the standards listed above, except IFRS 18, will have a material impact on the consolidated financial statements of the Group in future periods.

The management is in the process of reviewing the impact of IFRS 18 on the consolidated financial statements.

IFRS 18 *Presentation and Disclosures in Financial Statements*

IFRS 18 replaces IAS 1, carrying forward many of the requirements in IAS 1 unchanged and complementing them with new requirements. In addition, some IAS 1 paragraphs have been moved to IAS 8 and IFRS 7. Furthermore, the IASB has made minor amendments to IAS 7 and IAS 33 *Earnings per Share*.

IFRS 18 introduces new requirements to:

- present specified categories and defined subtotals in the statement of profit or loss;
- provide disclosures on management-defined performance measures (MPMs) in the notes to the financial statements;
- improve aggregation and disaggregation.

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

The Group is required to apply IFRS 18 for annual reporting periods beginning on or after 1 January 2027, with earlier application permitted. The amendments to IAS 7 and IAS 33, as well as the revised IAS 8 and IFRS 7, become effective when an entity applies IFRS 18. IFRS 18 requires retrospective application with specific transition provisions.

3. Material accounting policies

Statement of compliance

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS Accounting Standards).

These consolidated financial statements are presented in thousands of *Kazakhstani tenge* ("KZT thousand"), unless otherwise indicated.

These consolidated financial statements have been prepared assuming that the Group is a going concern and will continue operation in the foreseeable future.

Operating environment

Emerging markets such as Republic of Kazakhstan are subject to different risks than more developed markets, including economic, political and social, and legal and legislative risks. Laws and regulations affecting businesses in Republic of Kazakhstan continue to change rapidly, while tax and regulatory frameworks are subject to varying interpretations. The future economic direction of Republic of Kazakhstan is heavily influenced by the fiscal and monetary policies adopted by the government, together with developments in the legal, regulatory, and political environment.

As Kazakhstan produces and exports large volumes of oil and gas, its economy is particularly sensitive to the global oil and gas price. The global geopolitical situation continues to exert pressure on oil and gas prices across the world. Also, government expenses on major infrastructure projects and various socio-economic development programs have a significant impact on the country's economy.

The military and political conflict between Russia and Ukraine escalated in early 2022, resulting in several countries introducing economic sanctions against Russia and Belarus, including measures to ban new investment and restrict interaction with major financial institutions and many state enterprises.

In 2025, the average Brent crude oil price was 69 US Dollars per barrel (2024: 81 US Dollars per barrel). According to preliminary estimates, Kazakhstan gross domestic product ("GDP") grew by 6.5% in 2025 (2024: the GDP growth was 5%). In 2025, inflation in Kazakhstan increased to 12.3% per annum (2024: 8.6%). In 2025, the National Bank of the Republic of Kazakhstan (NBRK) increased the base rate from 15.25% to 18% per annum with a corridor of +/- 1.0 percentage point. The NBRK adheres to a monetary policy as part of its inflation targeting framework, with a floating tenge exchange rate. The official tenge exchange rate against the US Dollar changed from 525.11 tenge per US Dollar on 1 January 2025, to 502.57 tenge on 31 December 2025. Uncertainty still exists with respect to the future development of geopolitical risks and their impact on the Kazakhstan economy.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Management of the Group is monitoring developments in the economic, political, and geopolitical situation, and taking the measures it considers necessary to support the sustainability and development of the Group's business for the foreseeable future. However, the consequences of these events and related future changes may have a significant impact on the Group's operations.

Basis of preparation

These consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for the purposes of preparation of the consolidated financial statements, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Exchange rates for the currencies in which the Group transacts were as follows:

	31 December 2025	31 December 2024	Average rate for 2025	Average rate for 2024
KZT/ 1 U.S. Dollar	502.57	523.54	521.59	469.44
KZT/ 1 Euro	591.68	546.47	590.15	507.86
KZT/ 1 Ruble	6.42	4.99	6.28	5.08
KZT/100 UZS	4.18	4.07	4.17	3.72

Foreign currencies

In preparing the financial statements of the Group entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit or loss in the period in which they arise.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the parent company and entities controlled by the Group made up to 31 December each year. Control is achieved when the Group:

- has the power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee;
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, the results of subsidiaries acquired or disposed of during the year are included in profit or loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between the members of the Group are eliminated on consolidation.

Financial instruments

Financial assets and financial liabilities are recognised in the Group's statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables that do not have a significant financing component which are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Classification of financial assets

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets other than purchased or originated credit-impaired financial assets (i.e. assets that are credit-impaired on initial recognition), the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

Impairment of financial assets

The Group forecasts expected credit losses related to its debt instruments at amortised cost and fair value through other comprehensive income, irrespective of the existence of any indications of impairment.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Trade receivables are grouped based on their materiality level to measure expected credit losses. For short-term trade receivables without a material financing component and with the exception of individually material balances measured individually, the Group applies the simplified approach required by IFRS 9, and estimates a provision for expected credit losses during the loan period from initial recognition of the receivable (portfolio approach). The Group uses a matrix of provisions in which loss provisions are calculated for trade receivables pertaining to various debt periods or overdue periods. An irrevocability analysis has been performed to determine a common payment default coefficient. The value of receivables written off and the balance of outstanding receivables are compared to determine the default level for a specific settlement period interval. Default rates are determined as at the date receivables arise and for each subsequent interval between the overdue payments.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

Financial liabilities

Financial liabilities after initial recognition are measured at either amortized cost using the effective interest method or fair value through profit or loss (FVTPL). At the reporting date, the Group had only financial liabilities measured at amortised cost.

Financial liabilities measured at amortised cost

Financial liabilities that are not (1) contingent consideration of an acquirer in a business combination, (2) held-for-trading, or (3) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Trade and other accounts payable

Trade and other accounts payable are measured at costs, which is the fair value of compensation to be paid in the future for goods and services received.

Borrowings and borrowing costs

Borrowings are initially recognised according to the amount received less transaction costs. As a consequence, they are accounted for at amortised costs using the effect interest rate, inclusive of the difference between net receipts and settlements in profit or loss during the entire loan period.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in profit or loss and other comprehensive income in the period in which they are incurred.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, its obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit or loss and other comprehensive income.

Cash and cash equivalents

Cash and cash equivalents consist of unrestricted balances on correspondent accounts in banks and short-term deposits in banks with original maturity of less than three months that are free from contractual encumbrances.

Trade accounts receivable

Trade accounts receivable are recognised and carried at original invoice amount less an allowance for any doubtful debts.

The Group always measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The Group has recognised a loss allowance of 100% against all receivables over 90 days past due because historical experience has indicated that these receivables are generally not recoverable.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over three years past due, whichever occurs earlier. None of the trade receivables that have been written off is subject to enforcement activities.

Inventory

Inventories of materials and supplies are valued at the lower of cost and net realizable value. Cost is determined on a weighted average basis.

Property and equipment

Land and buildings held for the rendering of services are carried in the statement of financial position at a revalued amount, being its fair value at the date of the revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Revaluations are made with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period.

Any revaluation increase arising on the revaluation of such land and buildings is credited to the properties revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised as an expense, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed. A decrease in carrying amount arising on the revaluation of such land and buildings is charged as an expense to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Depreciation on revalued buildings is recognised in profit or loss. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings.

Construction in progress is carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such construction in progress is classified to the appropriate categories of property and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated.

Equipment and other property are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method, on the following bases:

	Years
Buildings	51
Telecommunication equipment	3-30
Vehicles	5
Computers and peripherals	3.75-7
Other	3-20

Expenses incurred after the equipment was put into operation, or related to repairs, servicing and technical servicing are charged when incurred. When expenses result in increase of economic benefits expected to arise due to using property and equipment over its assessed performance (increase of useful lives, productivity, etc.), such expenses are capitalized as added cost of property and equipment.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit or loss.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Depreciation is calculated on the basis of the straight-line method of depreciation using the following established useful lives:

	Years
Software	5-10
Licenses	3-10
Other intangible assets	10

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Impairment of tangible and intangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease. If the impairment loss exceeds the surplus from the revaluation of that asset, the additional impairment loss is recognised in profit or loss.

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

**Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)**

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase. Any increase above this amount is treated as a revaluation surplus.

Trade accounts payable

Trade accounts payable are carried at cost, which is the fair value of the consideration to be paid in the future for goods and services received.

Retirement and pension obligations

In accordance with the requirements of the legislation of the Republic of Kazakhstan the current pension system provides for the calculation of current payments by the employer as a percentage of current total payments to staff. This expense is charged in the period the related salaries are earned. Upon retirement all retirement benefit payments are made by Integrated Accumulative Pension Fund. The Group does not have any pension arrangements separate from the current pension system of the Republic of Kazakhstan. In addition, the Group has no post-retirement benefits or other significant compensated benefits requiring accrual.

Short-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Share capital

Contributions to share capital are recognised at cost.

Dividends on common shares are recognised in equity as a reduction in the period in which they are declared. Dividends that are declared after the reporting date are treated as a subsequent event under IAS 10 *Events after the reporting period* and disclosed accordingly.

Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Revenue recognition

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Group recognises revenue from the following major types of services:

- Services related to technical support of DPC equipment;
- Provision of telecommunication services;
- Provision of service of data processing center (DPC);
- Installation of structured cabling system, systems of video surveillance and firefighting;
- Provision of service of germozone;
- Equipment sales, the price of which includes a service charge and a manufacturer's warranty included in the price. Manufacturer's warranties cannot be purchased separately, and they serve as an assurance that the products sold comply with agreed-upon specifications of the manufacturer.

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the amount of revenue can be reasonably measured. Revenue is recognised net of indirect taxes and is recognised based on invoices issued during the reporting period.

All types of revenue from service provision including revenue from telecommunication services and revenue from set-up of structured cabling system are mainly represented by the amounts of revenue that are agreed by the contracts and which are recognised over a period of time based on monthly acts of work done and invoices formed by the Group.

Revenue from sale of equipment is recognised at the point of transfer of risks and rewards of the ownership of the equipment, normally when the equipment is shipped. Control of the asset is transferred when the customer obtains control of the asset, which occurs at the point in time when the equipment is delivered. If the Group agrees to transport goods to specific location, revenue is recognised when the equipment is passed to the customer at the destination point.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding (excluding interest) and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Expenses recognition

Expenses are recognised at the time the actual receipts of the related goods or services occurs, regardless of when cash and cash equivalent is paid, and are reported in the consolidated financial statements in the period to which they relate.

Leases

Group as a Lessee

The Group assesses whether a contract is, or contains, a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets (such as tablets and personal computers, small items of office furniture and telephones). For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Group as a Lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Finance lease

Group as a Lessee

For finance lease agreements under IFRS 16 *Leases*, the Group has the following accounting principles:

- (a) Recognises right of use assets and lease liabilities in the statement of financial position, initially measured at the present value of the future lease payments;
- (b) Recognises depreciation of right of use assets and interest on lease liabilities in the statement of profit or loss and other comprehensive income;
- (c) Separate the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within operating activities) in the cash flow statement.

Lease incentives (rent free period) are recognised as part of the measurement of the right of use assets and lease liabilities.

Right of use assets tested for impairment in accordance with IAS 36 *Impairment of Assets*.

Joint Stock Company Kazteleport -

Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current income tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. Current tax liability is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination or for transactions that give rise to equal taxable and deductible temporary differences) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred income tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Other taxes

In the Republic of Kazakhstan there are also various other taxes, which are assessed on the Group's activities. These taxes are included as a component of general and administrative expenses in the consolidated statement of profit or loss and other comprehensive income.

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank of Kazakhstan

Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)

4. Critical accounting judgements and key sources of estimation uncertainty

In the application of the accounting policies the Group's management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The below are listed key estimations that the management have used in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

Impairment of trade accounts receivable

Trade accounts receivable are reflected at amortized cost net of an allowance for impairment. The assessment of the allowance for impairment includes a subjective factor. The company evaluates the allowance for impairment to maintain it at a level deemed sufficient by the Company's management to cover losses on trade accounts receivable.

Revaluation of fixed assets

The Group accounts for land and buildings at revalued amounts.

The valuation of the land and buildings was carried out by an independent appraiser as of 27 November 2024 on fixed assets in the city of Almaty and as of 2 December 2024 on fixed assets in the city of Astana. The valuation in accordance with the International Valuation Standards was made on the basis of a market approach. The description of the valuation methods is disclosed in Note 10.

The management of the Group believes that as at 31 December 2025 the fair value of land and buildings does not differ significantly from their carrying value.

5. Cash and cash equivalents

	31 December 2025	31 December 2024
Short-term deposits in banks with original maturity less than three months	925,429	170,008
Cash on current and card-accounts	107,854	92,948
Allowance for expected credit losses	(2)	(1)
Total cash and cash equivalents	1,033,281	262,955

**Joint Stock Company Kazteleport -
Subsidiary Company of Halyk Bank of Kazakhstan**

**Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)**

As at 31 December 2025 and 2024, all short-term deposits with maturities of less than one month were opened at the Parent company with the annual interest rate of 16.5% and 13.75%, respectively.

The Group monitors all financial assets that are subject to the impairment requirements for a significant increase in credit risk from the date of initial recognition. As at 31 December 2025 and 2024, the Group has not identified any significant increase in credit risk, therefore, it calculates the amount of the expected credit loss based on the amount of credit losses expected during next 12 months.

6. Trade accounts receivable

	31 December 2025	31 December 2024
Trade accounts receivable	1,032,569	746,048
Allowance for expected credit losses	(19,836)	(15,421)
Total trade accounts receivable	1,012,733	730,627

The following table details the risk profile of trade accounts receivable based on the Group's provision matrix as at 31 December 2025 and 2024:

31 December 2025	Trade accounts receivable past due days		
	Not past due	>90	Total
Expected credit loss rate	1.7%	100%	
Estimated total gross carrying amount at default	1,030,247	2,322	1,032,569
Lifetime expected credit loss	17,514	2,322	19,836

31 December 2024	Trade accounts receivable past due days		
	Not past due	>90	Total
Expected credit loss rate	1.7%	100%	
Estimated total gross carrying amount at default	743,262	2,786	746,048
Lifetime expected credit loss	12,635	2,786	15,421

Movements in the allowance for expected credit losses on trade accounts receivable for the years ended 31 December are presented in the table below:

	2025	2024
As at January 1	15,421	15,337
Write-off of trade accounts receivable	-	(302)
Accrual of additional reserves	28,707	35,933
Recovery of reserves	(24,292)	(35,547)
As at 31 December	19,836	15,421

As at 31 December 2025 and 2024, trade accounts receivables were classified into stages 2 and 3.

**Joint Stock Company Kazteleport -
Subsidiary Company of Halyk Bank of Kazakhstan**

**Notes to the consolidated financial statements (continued)
for the year ended 31 December 2025
(in thousands of Kazakhstani Tenge, unless otherwise indicated)**

7. Advances paid

As at 31 December 2025 and 2024, advances paid consisted of:

	31 December 2025	31 December 2024
Delivery of equipment and materials	533,269	216,104
Deferred expenses	216,305	298,411
Construction of data processing centers	23,050	7,600
Other	136,634	93,265
Total advances paid	909,258	615,380
Non-current	539,069	143,980
Current	370,189	471,400
Total	909,258	615,380

8. Inventories

	31 December 2025	31 December 2024
Materials and spare parts at cost	320,509	338,978
Other raw materials	20,952	17,395
Total inventories	341,461	356,373

Materials and spare parts at cost for provision of services consist of equipment for the installation of structured cable systems and video surveillance systems, fire extinguishing systems, access control systems, spare parts for maintenance of air conditioners and uninterruptible power supply (UPS).

9. Other current assets

Other assets mainly include input value added tax (VAT) and materials assigned to employees for use on an accountable basis. As of 31 December 2025, input VAT amounted to 14,520 thousand tenge (2024: 5,548 thousand tenge). Additionally, as of 31 December 2025, materials assigned to employees for the provision of services to clients amounted to 597,285 thousand tenge (2024: 500,730 thousand tenge). The increase is attributed to the growth in the volume of services provided in 2025.

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank

Notes to the Financial Statements (continued) for the year ended 31 December 2025 (in thousands of Kazakhstani Tenge)

In 2024, qualified independent appraisers conducted a revaluation of the of real estate assets, including administrative premises and land plots. Based on market data, the carrying amount of real estate, considering the revaluation, amounted to 1,968,583 thousand tenge as of 31 December 2024. The revaluation loss recognised in 2024 amounted to 44,424 thousand tenge (5,366 thousand tenge related to land plots and 39,058 thousand tenge related to buildings). This loss was reflected in other comprehensive loss in the amount of 35,539 thousand tenge, net of deferred tax of 8,885 thousand tenge. The net revaluation loss on buildings recognised in profit or loss amounted to 8,249 thousand tenge.

The fair value was determined by independent appraisers based on market approach. The valuation complies with International Valuation Standards and was based on recent market transactions made on market conditions with similar real estate. When using the cost approach, the actual costs were used with the application of the lifetime of the estimated objects. According to the classification of fair value assessment levels, the hierarchy of the fair value of the assessed objects is determined as Level 2. During the period, there were no changes in the valuation methodology.

If land and buildings were measured at historical cost, their book value would be:

	31 December 2025	31 December 2024
Land	599,511	259,108
Buildings	1,654,940	1,700,197

As of 31 December, the movements in the property and equipment revaluation reserve are as follows:

	2025	2024
As at January 1	62,092	99,067
Other comprehensive loss	-	(35,539)
Reclassification to retained earnings	(25,656)	(1,436)
As at 31 December	36,436	62,092

Upon disposal of fixed assets, the part of the reserve, net of taxes, related to the disposal of assets, is reclassified to retained earnings. The revaluation reserve for fixed assets will not be subsequently reclassified to profit or loss.

During 2025, construction in progress of the Data Processing Center in Almaty amounting to 578,905 thousand tenge was transferred to property, plant, and equipment, which was commissioned in February 2025. During 2024, construction in progress of the Data Processing Center in Astana amounting to 2,737,084 thousand tenge was transferred to property, plant, and equipment.

As of 31 December 2025 and 2024, fully amortised fixed assets were in the amount of 187,522 thousand tenge and 279,150 thousand tenge, respectively.

11. Right-of-use assets

In 2024 and 2022, the Group entered into lease agreements for production facilities with the Parent company, for a period of 60 months and 36 months, respectively. According to the terms of the contracts, the Group acts as a tenant of production facilities for the placement of data processing centers in the cities of Astana, Almaty and Aktau.

As of 31 December 2025, right-of-use assets in the amount of 37,089 thousand tenge and lease obligations in the amount of 39,326 thousand tenge were recognised.

For the year ended 31 December 2025 the Group recognised depreciation of right-of-use assets in the amount of 19,188 thousand tenge (2024: 18,808 thousand tenge) and interest expense on lease obligations in the amount of 3,465 thousand tenge (2024: 4,742 thousand tenge), which are reflected in other expenses. For 2025 and 2024, the calculation of the amount of interest is based on the effective rate of 21.9% and 19% respectively.

	31 December 2025	31 December 2024
Maturity analysis:		
Year 1	22,019	19,538
Year 2	19,467	20,725
Year 3	-	24,667
Total	41,486	64,930
Less: unearned interest	(2,160)	(5,991)

(in thousands of Kazakhstani Tenge)

23. Rent expenses

Rental expenses include short-term lease agreements for administrative premises. For the years ended 31 December 2025 and 2024, the Group entered into office lease agreements at a market rate in the amount of 199,380 thousand tenge and 151,344 thousand tenge, respectively (Note 26).

24. Income tax expense

The Group makes tax calculations for the current period based on tax accounting data carried out in accordance with the requirements of the tax legislation of the Republic of Kazakhstan, which may differ from IFRS Accounting Standards.

Due to the fact that some types of income and expenses are not accounted for tax purposes, the Group has certain permanent tax differences.

Deferred tax reflects the net tax effect of temporary differences between the carrying amount of assets and liabilities for consolidated financial reporting purposes and the amount determined for tax purposes. Temporary differences available as of 31 December 2025 and 2024 are mainly related to different methods/terms of accounting for income and expenses, as well as temporary differences arising from differences in the accounting and tax values of certain assets.

Deferred tax assets/(liabilities) as at 31 December 2025 and 2024 are as follows:

	31 December 2025	31 December 2024
Deductible temporary differences:		
Provision for bonuses to employees	196,010	134,942
Provision for unused vacation	165,540	143,026
Tax losses of the subsidiary	157,390	69,927
Lease liabilities	39,326	58,939
Allowance on trade accounts receivable and advances paid	19,836	15,421
Other	1,193	-
Total deductible temporary differences	579,295	422,255
Taxable temporary differences:		
Property, equipment, and intangible assets	(2,708,917)	(1,681,742)
Right-of-use assets	(37,089)	(55,701)
Discount on borrowings	(322)	(1,975)
Total taxable temporary differences	(2,746,328)	(1,739,418)
Net taxable temporary differences	(2,167,033)	(1,317,163)
Net deferred tax liabilities at the statutory tax rate		
Tax rate 20%	(452,492)	(271,813)
Net deferred tax assets at the statutory tax rate		
Tax rate 15%	14,314	6,285

The tax rate used to calculate corporate income tax for the years ended 31 December 2025 and 2024 is 20%, paid by legal entities from the calculation of taxable income in accordance with the tax legislation of the Republic of Kazakhstan and 15% in accordance with the tax legislation of the Republic of Uzbekistan.

25. Financial commitments and contingent liabilities

Lawsuits

In the normal course of business, the Group may be subject to legal proceedings and lawsuits. Management believes that the final liability, if any, arising from these claims will not have a significant negative impact on either the current financial position or the results of the Group's financial and economic activities in the future.

Taxation

Due to the presence of provisions in the commercial and, in particular, in the tax legislation of the Republic of Kazakhstan that may have more than one interpretation, as well as in connection with the practice of tax authorities to make an arbitrary judgment on the Group's activities, if any specific actions based on the interpretation of legislation in relation to the Group's activities by the guidelines will be challenged by the tax authorities, this may lead to the accrual of additional taxes, fines and penalties. The Group believes that all the necessary tax charges have been made, and, accordingly, no reserves have been accrued in the consolidated financial statements. The tax authorities have the right to check the correctness of tax accruals within five years after the end of the tax period.

Pension payments

In accordance with the legislation of the Republic of Kazakhstan, all employees of the Group are entitled to pension provision. As of 31 December 2025 and 2024, the Group had no obligations to its current or former employees for additional pension payments, payment of medical care after retirement, insurance payments or other benefits upon retirement.

26. Transactions with related parties

Related parties, or transactions with related parties, are defined by IAS 24 *Related party disclosures*. Transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

In considering each possible related party, attention is directed to the substance of the relationship, and not merely the legal form. The volumes of related party transactions, outstanding balances as at 31 December 2025 and 2024, and related expenses and incomes for the years then ended are as follows:

	31 December 2025				31 December 2024			
	Parent company	Entities under common control	Other related parties	Total by category per the consolidated financial statements	Parent	Entities under common control	Other related parties	Total by category per the consolidated financial statements

Salaries and other short-term benefits	(364,365)	(3,238,578)	(238,568)	(2,295,189)
Total key management compensation	(364,365)	(3,238,578)	(238,568)	(2,295,189)

27. Fair value of financial instruments

IFRS Accounting Standards defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Since for most of the Group's financial instruments there are no existing available market mechanisms for determining fair value, fair value estimation must use assumptions based on current economic conditions and the specific risks inherent in the instrument.

The fair values of the instruments presented here do not necessarily reflect the amounts that the Group would have received from a market sale of all investments in a particular instrument.

The following methods and assumptions have been used by the Group to calculate the fair value of financial instruments:

- The carrying amount of cash and cash equivalents approximates their fair value due to the short-term nature of these financial instruments.
- For assets and liabilities with maturities of less than twelve months, the carrying amount approximates fair value due to the short-term nature of these financial instruments.
- For financial assets and liabilities with maturities greater than twelve months, fair value is the present value of discounted expected future cash flows using market rates at the end of the reporting period.

As at 31 December 2025, the fair value of loans received was 239,786 thousand tenge (2024: 587,213 thousand tenge). Loans attracted have fixed rates. Fair value was determined based on market rates at the reporting date for similar maturities.

As of 31 December 2025, the book value of loans received related to level 3 according to the fair value hierarchy.

28. Risk management policy

Management of risk is fundamental to the Group's business and is an essential element of the Group's operations. The main risks inherent to the Group's operations are those related to:

- Market risk;
- Credit risk;
- Liquidity risk.

The Group's principal financial instruments comprise cash and cash equivalents, trade receivables and payables, bank deposits, borrowings and other financial assets and liabilities. A summary description of the Group's risk management policies is disclosed below.

Market risk

The main risks associated with the Group's activities are the risks of fluctuations in foreign exchange rates and interest rates (see below).

Interest rate risk

As described in Note 17, in 2022 the Group entered into Framework Agreement with Altyn Bank JSC for the construction of a data center with a fixed fee rate, set for each individual tranche individually. In 2025 the Group's operations are not subject to interest rate risk as the Group borrows funds at fixed interest rates.

The Group is not exposed to interest rate risk on financial assets as the Group has no financial assets that bear interest, other than short-term bank deposits with original maturities of less than three months.

Currency risk

Foreign exchange risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group's financial position and cash flows are exposed to fluctuations in foreign exchange rates.

As of 31 December 2025, the consolidated financial assets are denominated in Kazakhstani Tenge, except for cash and cash equivalents, which are expressed in sums (equivalent to 9,786 thousand tenge) and US dollars (equivalent to 3,696 thousand tenge), also, trade receivables, which are also expressed in sums (equivalent to 3,105 thousand tenge), US dollars (equivalent to 34,859 thousand tenge) and euros (equivalent to 2,108 thousand tenge). All consolidated financial liabilities are denominated in Kazakhstani Tenge, except for liabilities denominated in US dollars (equivalent to 2,528 thousand tenge), in euros (equivalent to 1,473 thousand tenge) and in sums (equivalent to 759 thousand tenge).

Joint Stock Company Kazteleport - Subsidiary Company of Halyk Bank

Notes to the Financial Statements (continued) for the year ended 31 December 2025 (in thousands of Kazakhstani Tenge)

As of 31 December 2024, the consolidated financial assets are denominated in Kazakhstani Tenge, except for cash and cash equivalents, which are also expressed in sums (equivalent to 10,847 thousand tenge) and trade receivables, which are also expressed in sums (equivalent to 2,597 thousand tenge) and US dollars (equivalent to 243 thousand tenge). All consolidated financial liabilities are denominated in Kazakhstani Tenge, except for liabilities denominated in US dollars (equivalent to 2,626 thousand tenge), in euros (equivalent to 15,993 thousand tenge) and in sums (equivalent to 1 thousand tenge).

Credit risk

Consolidated financial assets, which potentially subject the Group to credit risk, principally consist of bank deposits and trade receivables. The Group has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history. The carrying amount of accounts receivable represents the maximum amount exposed to credit risks.

As at 31 December 2025, the amount of balances of receivables, including provision, of the 10 largest counterparties amounted 512,942 thousand tenge or 51% (31 December 2024: 435,495 thousand tenge or 60%) of the total amount of trade receivables. As of 31 December 2025 and 2024 accounts receivable, taking into account the provision, of the Parent Company amounted to 285,103 thousand tenge and 246,126 thousand tenge or 28% and 34%, respectively.

As of 31 December 2025 and 2024, cash and cash equivalent balances attributable to the Parent Company are 96% and 67%, respectively. As of 31 December 2025 and 2024, cash and cash equivalents are held in Halyk Bank of Kazakhstan JSC with an international credit rating of Baa1/stable in accordance with the rating of Moody's, disclosed on the Kazakhstan Stock Exchange.

As of 31 December 2025 and 2024, for consolidated financial assets held on balance sheets, the maximum exposure to credit risk is equal to the carrying amount of those assets, excluding offsets of assets and liabilities and collateral.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking to damage the Group's reputation.

The Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot be reasonably predicted, such as natural disasters.

Tables on liquidity risk and interest rate risk

The following tables reflect the Group's contractual terms for non-derivative financial assets and liabilities. The table has been compiled based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes cash flows for both interest and principal.

The following table details the Group's liquidity analysis as at 31 December 2025:

2025	Weighted average effective interest rate	Up to 1 month	1 month to 3 months	3 months to 1 year	1-5 years	Total	As per line items in the statement of financial position
Financial assets							
Trade accounts receivable (Note 6)		-	1,032,569	(19,836)	-	1,012,733	1,012,733
